PANJIM: Palacio Group believes in 'Progress through Harmony, all the way' and this can be experienced at their prestigious project at Goa Velha, Glenwood Gardens.

Co-founder of Palacio Group Vinay Bhasin said that a lot of passion and hard work has been put in to develop this project in a unique manner. There have been many firsts here and these have been positively accepted and appreciated by the clients.

At the complex, Palacio Group has already handed over possession of five buildings to clients and will be handing over three more in the next three months. Phase 3 is currently under construction.

"Most of the homes are owned by locals and quite a few are from the vicinity itself, which is heart-warming as it means that we have been successful in living our vision of creating homes for the local community; homes that are a beautiful blend of local heritage with modern day comforts. When people

move to a new home within their vicinity, it is for the sole purpose of upgradation of space and lifestyle." says Vinay Bhasin.

In addition to the vast chunks of landscaping, Palacio has also developed an organic vegetable garden; the fruits of which will be enjoyed by the residents and their next generations to come. There is also a waste management system, a composting pit, a sewage treatment plant in place; all of which will enable the vegetation at the complex to flourish.

In addition, there are several facilities being provided to senior citizens at the complex, such as an electric buggy for pollution free

movement within the complex, an ambulance at site to take care of emergencies, emergency alarms in the apartments, walking tracks, sit outs in the lawns and soon to start are, an infirmary, doctor on call, tennis court, laundry service, help-desk, convenience store, restaurant, library and much more.

There is a state-of-the-art gymnasium. The spacious yoga room creates a calm and mystical ambience while the games room adds to the fun for young and old alike.

Glenwood Gardens has been approved by highly reputed financial institutions in India, after being whetted by their panel of legal advisors.
